FOR THE BEST ENTERTAINMENT AT HOME

At the end of 2009 the Israeli TV market was shaken up when both local cable and satellite television providers suddenly dropped The Hallmark Channel from their packages. Many consumers were frustrated that once again they were losing a significant English channel.

Many people are unaware that there is an alternative to the local packages- a satellite dish that can provide you with an exceptionally wide range of programming from around the world.

Recently Multi Choice Africa (MNET) has announced that it will terminate its broadcasts in this region of the Middle-East. However, this does not mean that you cannot find the programs you enjoy on other providers. For instance- SKY sports seems to be a promising alternative to the MNET sports channels, since it will carry many of the same sporting events (please note that, due to technical limitations, only part of the SKY UK package is available in Israel).

The satellite communications market is very dynamic, and therefore it is important that you consult with a reliable provider, who will tailor a system to suit your specific viewing interests. With the understanding of the dynamics of the market, we have confidence in our product. Therefore, contrary to many of our competitors, we insist on billing our customers at the end of every month- for the previous month (not like some, who bill you at the beginning of the month for the month to come).

Besides MNET, we provide a multitude of movie, series and sports channels. So whether you are looking for an MNET alternative, or just looking to watch some more, we invite you to call and consult with us.

Join the best service in Israel.
